**WHITE LAKE TOWNSHIP
ORDINANCE 88 APPLICATION**

On a separate sheet, complete the following that may apply

An applicant for a permit shall pay such fees and/or costs as are required by resolution of the Board and shall submit to the Board an application containing the following information except an applicant for a permit for earth balancing by a property owner solely upon his property need only comply with Subsections 1,2,3,9, and 10 of this Section.

1. A legal description of the premises wherein the operations are proposed.
2. Names and addresses of all parties having an interest in said premises setting forth their legal interest. Proof of legal interest shall be provided. Any person with any ownership interest in the property, when differing from the applicant, must also sign the application as a co-applicant to insure their responsibility for activity upon their property.
3. Topographical survey map at a scale of 1 inch to 100 feet, or 1 inch to 50 feet, as may be required by the Board showing existing and proposed final grades on a two-foot contour interval. Grades shall be prepared and sealed by a civil engineer registered as a professional engineer in the State of Michigan or land surveyor registered as a professional surveyor in the State of Michigan.

The required topographical map shall be complemented with a 100 feet minimum grid, which is consecutively numbered. The applicant shall identify the grids intended for various activities such as excavation and restoration. If it is deemed by the Board that a 100 feet grid is unnecessary, the requirements may be waived.

If the applicant is re-applying on a yearly basis to continue an ongoing excavation project, the applicant may use the same topographical survey map up to a maximum of eight (8) years with any additional topographical survey to be submitted at the discretion of the Board. Unless the final proposed grades and site use changes, the applicant need only submit one (1) final grading plan for the duration of his/her operation.

4. An estimate by a civil engineer registered as a professional engineer in the State of Michigan or land surveyor registered as a professional surveyor in the State of Michigan as to the cubic yards of material to be removed and/or placed, and a detailed statement as to how the filling and/or removal is to be accomplished.
5. A statement as to all types of materials to be removed and/or placed, and indication of specific places on the property where each of the materials or fill are to be removed or placed, a detailed statement as to the methods of operation, the type of machinery or equipment to be used, and the estimated period of time that such operations shall cover.
6. Details of similar operations carried on by the applicant, if any.
7. The type and daily number of vehicles to be used in the proposed operations.
8. Identification of access roads, on-site roads, grades for proper drainage and any special draining devices, if necessary, fencing, any structures on site existing or proposed, existing and proposed utilities, and an explanation of any on-site testing or other survey data, including soil surveys, water tables and subsurface characteristics.
9. A statement, which specifies in detail the proposed use of the land after the excavation or filling. The final grades presented shall be consistent with the purposes for use of the property after completion of operation.
10. A specific acknowledgment that the applicant and property owners have granted a license to Township officials and employees to enter onto the licensed property for the purpose of inspections and to bring the property into compliance with the provisions of the ordinance, if necessary.
11. Such other information and material as the Board may require.
